Store Plenty of Water

1. At least one gallon per day per person. Store in food grade plastic, glass or metal containers lined with enamel.

2. Add 4 drops of bleach per quart.

3. Stir and seal tightly.

4. Mark “Purified Water.”

5. Store in cool, dark place.

Can Use Water in Water Heater

1. Turn off water to house.

2. Turn off power to heater.

3. Drain water from bottom of heater.

4. Don’t turn on power until water refilled.

Can drain water from pipes

1. Turn faucet on in highest point of house.

2. Drain water from lowest faucet.
Choosing the Right Food
